Some Storekeepers

think the only way to increase profits is to increase gross sales. Some try to do it by cutting down running expenses.

We can show you a store system that will give you a greater profit this year on the same amount of business as you did last year. We can show you another system that will increase both your gross sales and percentage of profit. Call and see.

SENATE WORKING

(Continued from Page 1)
treasurer, and House Bill 14, providing for the payment of certain county employees weekly, recommending that they be tabled. The same committee reported on Senate Bill 74, providing for the appointment of two assistant county attorneys for the County of Oahu, and Senate Bill 75, raising the county attorney's salary from \$2400 to \$3000 a year; recommending that both be tabled to be considered with the bill dealing with county finances.

Senate Bill 56, the salaries bill, was taken up on second reading. On motion by Dowsett it was considered item by item.

The salary of \$150 for the librarian of the Archives struck Maheka as being rather large. McCarthy and Dowsett favored it and it passed.

Brown fought against the raise provided in the bill of the Treasurer's salary from \$250 to \$300. He said this was the proper time to reduce salaries of Territorial officers as their work had been reduced since the counties were established.

Dowsett said that the Treasurer's work had not been reduced. It had been the idea of the Ways and Means Committee to make the salaries of all department heads the same.

The item passed at \$250.

The committee recommended a raise of the Registrar's salary to \$225, challengingworth moved to make it \$200 as to the bill. Dowsett fought for the \$225 item and it passed at that figure. The rest of the salaries in this office were raised as recommended by the committee.

CUT OUT HOWLAND.

The item of \$16.96 2-3 a month for Mrs. H. B. Wells as a permanent settlement was stricken.

The committee's recommendation striking out the salaries of the Assistant superintendent of Public Works as well as those of his clerk and stenographer, was adopted. Dowsett explained that there was a chance to reduce expenses in the Public Works Department. On the other hand the item for engineers had been increased so that assistance could be had when it was needed by the Superintendent.

Brown fought against the raise of the item for engineers and draftsmen from \$3400 to \$12,000, on the grounds that the department always had to have outside men draw up plans and specifications, as the men in the department service were incompetent. He would like to cut the item out altogether.

McCarthy said that it was necessary to have proper superintendence of certain public works which were now going on. Smith said if the men were incompetent others could be engaged, but the remedy did not lie in cutting out the appropriation. Lane moved to pass the item at \$8400, as in the bill. Coelho said that the idea had been to give the superintendent an appropriation that would allow him to employ architects, who could make plans and specifications, as the engineers now employed know nothing about such, and outside help had to be engaged. Chillingworth said that it was a poor way to spite the office by cutting out the appropriation. There was a nigger in the woodpile somewhere.

COELHO OBJECTS.

Coelho took exception to this reference to the committee. Chillingworth said he had meant an office to the committee. He objected to the setting aside of such a lump sum to be used by the Superintendent as he saw fit.

Dowsett said that the sum was set aside so that assistance could be paid for when needed, but he did not want to pay salaries of figureheads, who had nothing to do.

Chillingworth wanted to know if this lump sum would not pay the salary of the assistant superintendent, even though the specific salary for such an officer had been cut out.

Dowsett said it should not. Chillingworth wanted to know how it could be prevented.

Hewitt moved an amendment to make the item read: to pay architects, clerks, engineers, draftsmen and stenographers at \$12,000.

Considerable discussion followed in the same channels as the above. Lane moved an amendment of Hewitt's amendment making the item \$5,400. This was lost. Hewitt's amendment, carrying \$12,000, carried.

Brown moved to raise the salary of the Hilo sewer superintendent from \$100 to \$125. Carried. A clerk at \$40 a month for this department was inserted.

Maheka asked to increase the salary of the Lanipahochoe water works superintendent from \$2 to \$5 a month. Carried.

Hayden moved to have the salary of the Lahaina water works superintendent increased from \$60 to \$85. Carried.

The other items in the Departments of the Secretary, Treasurer and Superintendent of Public Works passed as in the bill, or where the committee had made amendments, as amended.

A recess was taken until 2 p. m.

SENATE IS ROASTED

(Continued from Page 1)
discussion in the House this morning. A large amount of routine business was transacted, however. Eleven House bills came up on third reading and all of them were passed, generally without any opposition. Only on two or three of them were there any negative votes cast, and even on the bills which did meet with slight opposition there was no discussion. The House also passed three Senate bills and deferred action on one.

The same was true of the Governor's veto of the North Kohala hospital bill, which, on motion of Kanoho, was deferred for consideration until tomorrow.

The three messages of the Governor, announcing that he had been unable to approve of as many bills, were also deferred until Wednesday, they being Senate bills and the House desiring to await the action of the Senate before considering them.

Kanoho, the Representative from Kohala, who has been absent for about ten days on account of sickness, re-
